Doświadczalna 4, 20-290 Lublin, Poland

20th International Workshop for Young Scientists

BioPhys Spring 2021

SECOND ANNOUNCEMENT

to be held

**on 18th and 19th May 2021 in Lublin
in the form of video conference**

Co-organizers:

Dear friends and colleagues,

We are delighted to receive very big interest in participation in the BPS Seminar. We received 47 registered abstracts. Thank you very much for your interest and expressed willing of participation in the Seminar.

Due to the big number of presentations it was impossible to organize the BPS Seminar as planned the one day Session. Therefore, we decided to extend the BPS Seminar into two days event: i.e. 18th and 19th May 2021. We believe that the introduced change into the BPS program will not disturb so much in your other duties scheduled for 19th May.

Enclosed please find detailed programme of the BPS seminar divided into eight topics sessions. The programme is available also on the web page of the BPS <https://biophys.ipan.lublin.pl/> According to the schedule of the programme ten minutes of time is planned for each presentation. In practice it means eight minutes for presentation of a contribution, one minute for discussion and one minute for switching from one presentation to another. Therefore, our request to all participants is to prepare very short but still informative presentations.

We are looking forward to meet you on the BPS Seminar very soon on 18th and 19th May.

With the best regards,

Józef Horabik

Chairman of the Organising Committee of the BPS Seminar
